## **RETURN ON RATE BASE COMPUTATION**

- 1. The data used in calculating rate base are averages.

1998 Analytical Review DWCCA-6820-PJL

Dear Ms. Moen:

The Public Service Commission (PSC) is in the process of completing an analytical review of your utility's 1998 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

#### FINANCIAL SECTION FOOTNOTES

#### Identification and Ownership (Page iv)

- 1. As of today's date our office has not received a response to our letter of May 14, 1998, concerning our review of the utility's 1997 annual report. Please provide your response to that letter at this time.
- 2. During our review of the Pumping and Purchased Water Statistics schedule on page W?10, we noted that the utility reports only 12 Total kWh used for pumping for the year on line 26. Based on our experience the average cost per kWh is about 6¢ and we note that you report \$1,104 for Fuel or Power purchased for pumping in Account 620 on page W-5. Please provide the correct number of kWh and follow this procedure in the future.
- 3. In Account 271, Contributions in Aid of Construction, on page F-17, you report \$3,672 for contributions in aid of construction for water mains. However, there are no mains reported as added during the year in column (e) of the Mains schedule on page W-15 and there are no additions during the year reported for mains in column (c) of the Water Utility Plant In Service schedule on page W-8. Please explain.
- 4. Please provide the count of meters tested by size which was unavailable at the time the report was submitted.
- 5. Please confirm that the gallons of water reported as purchased in column (b) of the Sources of Water Supply Statistics schedule on page W-10 should actually be reported in column (d) for ground water. Please also provide the address, column (a) of the Sources of Water Supply Ground Waters schedule on page W-11 for well number one.
- 6. During our review, we noted that the utility's water loss reported on page W-10, while down from the 1997 figure, is still very high. Wis. Admin. Code § PSC 185.85 dictates that system losses shall be no greater than 25% for a class D utility. One avenue of assistance for this problem that you may want to consider is the Rural Water Association of Stevens Point. We understand that they do not charge for their time in assisting utilities in investigating leakage and you do not need to be a member of the association to quality for help. Their number is (715) 344-7778. Their internet home page address is http://www.wrwa.org. You will note that they are providing several seminars throughout the state on leak detection between now and the end of the year. You may also call Peter Feneht of our staff at (608) 266-5614 with any questions you may have on this subject.
- 7. Your 1998 annual report was filed after the due date of April 1, 1999. Wis. Stat. § 196.07(1) require annual reports to be filed on or before April 1st. If a utility fails to file an annual report by the due date, the PSC may prepare the report from the utility records charging the utility all expenses in preparing the report, plus a penalty equal to 50% of the amount of the expenses. Please implement time tables for closing of your 1999 financial records and completion of the financial audit to enable timely filing of your 1999 annual report.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30

cc: Mr. James Huffman, Village President

Per Doug Sorge on 12/2/99, he spoke with Scott Kegler of R.C.A.P. which is an agency which assists small community governments. Mr. Kegler explained that he is working with the village to help them schedule a private audit to resolve problems with their books and to address the concerns of the PSC and the DNR. Also, Darlene Moen, the village clerk, is in the hospital due to cancer. Given these facts, Doug thought it best not to send the late response letter.
